PROTOTYPE CONCEPT DECK · 2026

SNOONU ADS

AI-Powered Advertising Platform

Reach Customers at Every Touchpoint

Qatar | GCC | Middle East | Europe | World

CONFIDENTIAL · FOR INTERNAL REVIEW ONLY

EXECUTIVE SUMMARY

Snoonu ADS is a first-of-its-kind, AI-powered in-platform advertising solution enabling businesses to connect with high-intent customers directly within the Snoonu app, website and other digital touchpoints, such as power bank charging station screens - at the exact moment they are ready to discover, browse, and buy.

01

1.5M+

Massive Reach

Over half of Qatar's 3M population are already on Snoonu, representing all consumer segments.
With **10M+** monthly visits and ~20% Premium shoppers, your ads reach both mass audiences and high-value buyers in one platform.

02

AI

AI-Powered

Smart targeting using purchase behaviour, location & real-time data to maximise ROI.

03

6+

Every Touchpoint

Banner ads, sponsored listings, push notifications, video, Influencers, DooH & more — across app, web social media etc.

THE PROBLEM

Why businesses in Qatar & the GCC need Snoonu ADS:

- High ad costs with low purchase-intent matching
- No direct access to delivery-ready, in-app audiences
- Fragmented targeting - limited by location, language, or behaviour
- Missed touchpoints during the customer's live ordering journey

The Fragmented Advertising Landscape

10M+

Monthly Visits on Snoonu

99%

of consumers research products online before purchasing and 64% prefer doing it through apps over mobile websites.

$13.6B

GCC Digital Ad Spend (2025)

AD FORMATS — WAYS TO REACH YOUR AUDIENCE

Flexible formats designed to drive awareness, engagement, and conversion at every stage of the customer journey.

A — Banner Ads

Top-of-feed & mid-scroll display banners — high visibility, brand-safe placements.

B — Sponsored Listings

Products or services appear at the top of relevant category and search results.

C — Push Notifications

Targeted offers delivered to users' device lock screen and notification centre.

D — Video Ads

Short-form video spots within the browsing and discovery experience.

E — Homepage Takeover

Full-screen splash or banner on the Snoonu app/website home screen — maximum impact.

F — Contextual Ads

AI-matched ads displayed based on users' active search queries & browsing context.

EXTENDED CHANNELS:

External Media: Social Media Ads, Influencer Campaigns

DooH: S-Charge Screen Ads (Snoonu EV Network)

AI-POWERED SMART TARGETING

Snoonu ADS uses machine learning to serve the right ad, to the right person, at the right moment - driving higher engagement and superior ROI.

L

Location Targeting

Neighbourhood, city, or country-level geo-targeting with hyperlocal precision for Qatar & GCC.

B

Behavioural Data

Retarget users based on what they've browsed, ordered, or searched for previously on Snoonu.

D

Demographics

Age, language, device type and more : reach your exact customer profile within our app audience.

I

Purchase Intent AI

Machine learning identifies users at peak purchase-intent based on real-time behavioural signals.

ADVERTISER JOURNEY - HOW SNOONU ADS WORKS

A simple four-step process from account creation to live campaign optimisation.

01

Sign Up & Onboard

Create an advertiser account on the Snoonu ADS portal. Set up your business profile and billing.

02

Build Your Campaign

Choose ad format, upload creatives, set budget, schedule and targeting using AI suggestions.

03

Go Live

Ads are reviewed, approved, and launched. AI optimises placement and delivery in real time.

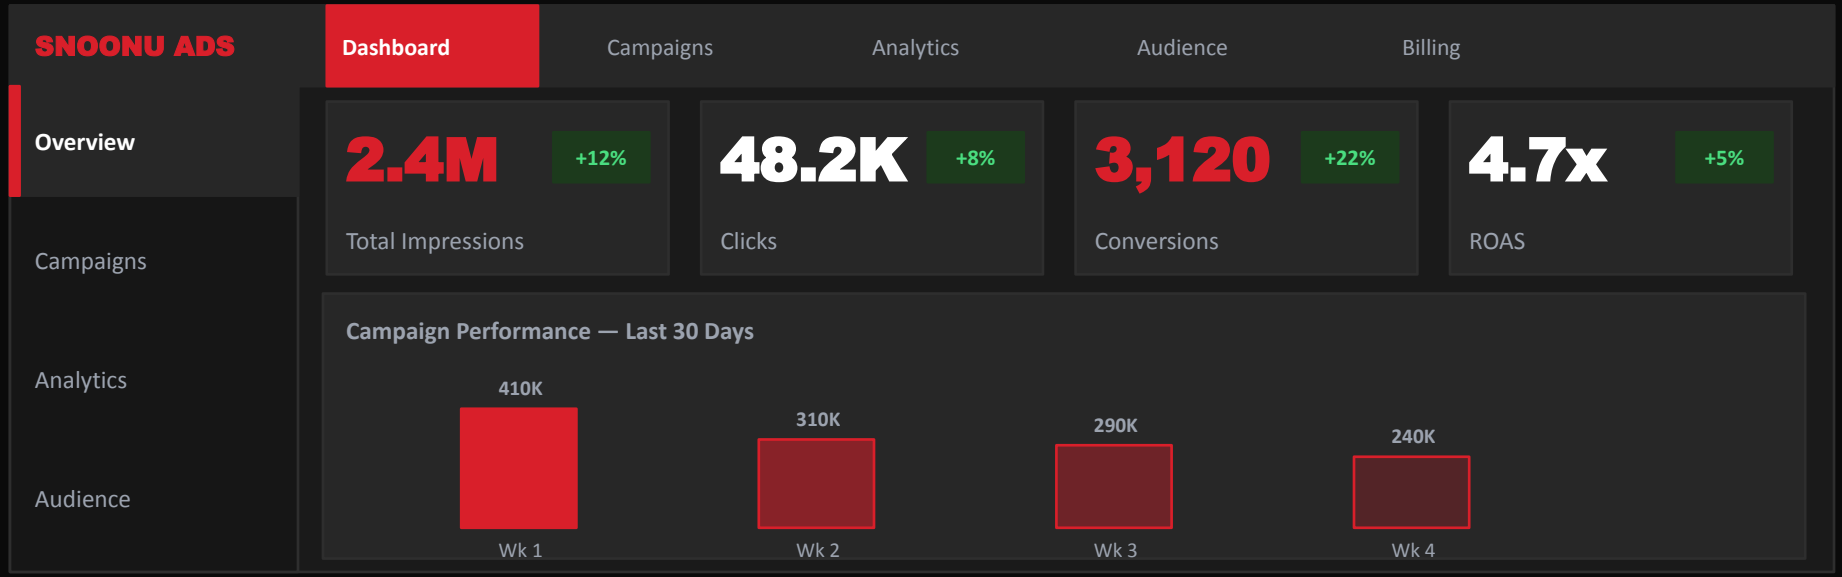
04

Track & Optimise

Monitor impressions, clicks, conversions & ROAS from your live analytics dashboard.

ADVERTISER DASHBOARD

A centralised, AI-assisted hub to manage, monitor, and optimise campaigns - accessible via web and mobile.



S-INTELLIGENCE DASHBOARD

Empower data-led growth with comprehensive market insights & AI assistance

Brand Performance

Sales, CLV & ROI of in-app promotions across SKUs and merchant channels.

Category Insights

Total category demand, purchasing patterns & seasonality impacts.

Competitive Landscape

Comparative metrics to protect market position and compete efficiently.

Customer Intelligence

Detailed profiles with demographics, geographies & behaviours.

ANALYTICS & REPORTING - REAL-TIME PERFORMANCE INTELLIGENCE

Every campaign includes a full analytics suite powered by AI insights, helping advertisers understand what is working and optimise on the go.

PLATFORM ROADMAP - FROM PROTOTYPE TO GLOBAL PLATFORM

Three clear phases from initial prototype and Qatar pilot through to a globally scaled programmatic platform.

Phase 1 Q2 – Q3 2026

Prototype & Qatar Pilot

→ Develop Snoonu ADS advertiser portal (web)

→ Integrate banner & sponsored listing formats in-app

→ Launch pilot with 10 Qatar-based businesses

→ Build AI targeting v1 (geo + behaviour)

Phase 2 Q4 2026 – Q1 2027

Full Launch & GCC Expansion

→ Full public launch of Snoonu ADS in Qatar

→ Expand ad formats: push, video, contextual

→ AI optimisation engine v2 (purchase intent AI)

→ Open platform to GCC advertisers

→ Multi-language support (Arabic, English)

Phase 3 2027 & Beyond

Global Scale

→ Expand to Middle East & Europe markets

→ Self-serve programmatic ad buying

→ Third-party data integrations & APIs

→ Advanced AI creative personalisation

→ Snoonu ADS marketplace (agency partners)

LET'S BUILD THE FUTURE OF ADVERTISING.

NEXT STEPS

1. Review and provide feedback on this concept
2. Approval to begin Phase 1 prototype development
3. Assign dedicated product and engineering team
4. Identify pilot advertiser partners in Qatar
